This paragraph exists to confirm that `SetConsoleOutputCP(CP_UTF8)` on the console side and the UTF-8 byte pass-through in `jsonEscape` both leave multi-byte sequences intact all the way into the PDF.

Second page

The marker above is replaced with a `page-break-after:always` div, so this heading must start on page 2 of the PDF.

Znak	Koda
č	U+010D
š	U+0161
ž	U+017E

Third page

Two page-break markers, so this file must produce exactly three pages.
